Avery King | Software Engineer

Peoria, IL

269-214-8032 • avery@averyk.dev • averyk.dev • averyking1

Software Engineer with over three years of experience building secure, mission-critical applications for FinTech and GovTech. Specialized in the .NET ecosystem and modern JavaScript frameworks, transforming complex business requirements into clean, maintainable software. Experienced in building scalable solutions on Azure and GCP.

Technical Skills

Languages: C#, .NET Core, TypeScript, JavaScript, PHP, SQL

Frontend: React, Next.js, Tailwind CSS, Bootstrap, HTML5, CSS3

Backend: Node.js, ASP.NET Web API, Entity Framework, Laravel

Databases: Microsoft SQL Server, PostgreSQL, MySQL, MongoDB

Cloud & DevOps: Microsoft Azure, Google Cloud Platform (GCP), Docker, GitHub Actions, GitLab CI

Testing: Playwright, Jest, xUnit, NUnit, Integration Testing

Professional Experience

RedMane Technology **Remote**

Software Developer *Aug 2023 – Jul 2025*

- Developed secure API integration components for the Arkansas Child Welfare Information System (CWIS), facilitating data exchange between state agencies and external platforms.
- Collaborated with business analysts to translate complex business requirements into functional .NET software specifications, ensuring compliance with state regulations.
- Implemented comprehensive automated testing using Playwright for End-to-End (E2E) scenarios and xUnit for backend logic, which significantly improved overall release quality.
- Worked within a cross-functional Agile team to refactor legacy code, improving system stability and maintainability.

VanDyk Mortgage **Remote**

Systems Developer *Apr 2022 – Aug 2023*

- Maintained and enhanced high-volume C#/.NET loan processing applications, ensuring reliable uptime for nationwide mortgage operations.
- Built an internal HR application using Next.js and TypeScript, which replaced manual onboarding spreadsheets and streamlined the new-hire process.
- Developed data warehousing scripts to automate the processing of loan data, improving the speed and accessibility of business reports.
- Built and managed a custom Content Management System (CMS) using PHP/Laravel, empowering loan officers to update their own websites without developer assistance.
- Wrote unit tests using xUnit to ensure the accuracy of financial calculations and logic within the loan processing system.

Education & Certifications

Western Michigan University **Kalamazoo, MI**
